

Callis Therapie PRO

For physically disabled but ambulatory patients

The Callis Therapie PRO treadmill can accommodate a wide range of patient types. Zero start speed with increments of 0.1 mph, combined with a no-friction low impact slat belt deck, provides the perfect walking environment for your rehabilitation patients.

Optional fully adjustable handrails in both height and width, accommodate a broad range of patient populations from pediatrics to large adult.

Technical data

Running surface:	Slat-belt, Sprintex low-impact, shock-absorbing profile
Running surface dimensions:	61x20/24/28 in / 155x50/60/70 cm
Patient weight:	< 550 lbs (250 kg), optional up to 700 lbs (318 kg)
Speed range:	0-13.8 mph / 0-22 km/h in 0.1 mph increments
Incline range:	0-20%, optional 0-25%
Dimensions (LxWxH):	68x30x55 in / 172x76x140 cm
Weight:	ca. 353 lbs / 160 kg (without add-ons)
Noise level:	<75 db (A)
Power:	1.3 kW 230 V AC, 50/60 Hz, 6.3 A

All specifications are subject to change without notice.

New, state-of-the-art 17" touch display

Basic biofeedback integrated

Coming soon: advanced biofeedback module

Different handrail options (adjustable, shoulder support for children or adults)

Overhead fall protection option

Reverse speed mode optional, speed depends on handrail option

Incline options 0-20% and 0-25%

Running surface width options: 20/24/28 inch (50/60/70 cm)

Biofeedback features

Basic real-time biofeedback functions through integrated sensors

It can measure parameters such as

- Step length (left/right)
- Steps/min
- Step cycle time
- Stride length
- Symmetry

Data recording for external gait & motion analysis
